<ul style="list-style-type: none"><li>- Complete Order_summary and order_by_item on User</li><li>- Complete inventory update for basic orders</li></ul>	Brian Vu	yes
<ul style="list-style-type: none"><li>- Allow size selection and ingredient selection for server side</li><li>- Allow additive selection for server side</li><li>- Add javascript components to server side to clear an order</li><li>- Add javascript components to server side to remove an item</li></ul>	Siddesh Padala	yes

---

## Before The Next Meeting

### Plans:

- Finish functionality and be ready for working on the presentation, documentation and other deliverables
- 

### Task Assignments:

Task Description	Assigned to
<ul style="list-style-type: none"><li>- Allow size selection and ingredient selection for server side</li><li>- Add javascript components to server side to clear an order</li></ul>	Adam Pinto
<ul style="list-style-type: none"><li>- Complete inventory update to update custom orders</li></ul>	Brian Vu
<ul style="list-style-type: none"><li>- Standardize styling across user, server, and manager side</li></ul>	Siddharth Nair, William Hipp

## Minutes from Previous Meeting

We completed a lot of functionality for the user side, such as selecting ingredients and additives. The user side is also able to add items to cart, and we are almost done with updating the database.
