Prepared by: Adam Pinto
Meeting Date: 04/26/2023

Meeting Attendees

1. Austin Veselka
2. Siddharth Nair
3. Brian Vu
4. Siddesh Padala
5. Adam Pinto
6. William Hipp

Meeting Agenda Items

- What tasks have been completed since the last scrum meeting?
- Are there any roadblocks?

Status Update Since Last Meeting

Accomplishments:
- Update order_summary and orders_by_item for server side placing orders.
- Completed a lot of functionality for the user side, including selecting ingredients and additives and adding items to cart.

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
- Add an ingredients and additives selection window to customer/server side (with functionality) - Allow the server/customer to remove items or clear the entire order. - Allow size selection and ingredient selection for customer side (with functionality)	Adam Pinto	yes
- Complete Order_summary PSQL insert - Complete Orders_by_item PSQL insert	Brian Vu	yes
- Deploy website	Austin Veselka	yes

- Created XZ report functionality within code - Added comments to manager side styling	Siddharth Nair	yes

Before The Next Meeting

Plans:
- Finish up the last remaining tasks.
- Make sure every part of the app is integrated and hosted properly online
- Create documentation.

Task Assignments:

Task Description	Assigned to
- Allow size selection and ingredient selection for server side - Add javascript components to server side to clear an order	Adam Pinto

Minutes from Previous Meeting

We completed the styling for the manager menu view.

We still had to implement a lot of functionality for the user and server sides, such as updating the database which is really important. We aimed to get that mostly done by the next sprint so that sprint 3 is just final touch ups and stretch goals.
